

THE 11th ANNUAL CASC SURVEY

2020

"WITHOUT DATA, YOU'RE JUST ANOTHER PERSON WITH AN OPINION"
W. EDWARDS DEMING

HISTORY

Since 2010, CASC have organised and supported the only independent, detailed annual survey looking at clinical audit. We have had almost 2,000 responses and the data returned has been high quality. Trends have been consistent and we report back ALL of our data to the clinical audit and QI community as rapidly as we can. With so much focus on national clinical audit we have added a few new questions for 2020 that will provide invaluable insights.

FEEDBACK

Clinical audit is all about measuring and improving. Our survey gives respondents a voice and a chance to have their say about local and national clinical audit. All replies are anonymised and the average time to complete is predicted to be less than 7 minutes (based on 2019).

MAKE SURE YOUR VOICE IS HEARD
