

# Practice Index

## CASC partner

## Who are they?

Practice Index was set up to support GP Practice Managers working in medical practices throughout the UK. Essentially, Practice Index is a free online resource that aims to provide members with details of the latest legislation, support and valuable time-saving resources to help make the lives of GP Practice Managers and equivalent staff working in primary care easier!

Practice Index is growing on a day-by-day basis. Members can access a wide range of useful materials and resources, including: an interactive forum to discuss all matters relating to general practice, jobs vacancies board, supplier directory, etc. The website also include a wide variety of helpful materials and resources (e.g. documents and policies). Those who register are sent regular newsletters and can read blogs.

## What they offer

## Facts and Figures

Practice Index has risen rapidly and since its inception the number of members has increased at an exponential rate. There are now over 10,000 members. In addition, the library of resources is rapidly increasing with over 600 policies, protocols and procedures available at time of writing (July 2017). Practice Index can point you in the direction of over 150 suppliers and the activity on the forum is exceptional and vibrant with many posts and comments given each day.
